NEWS RELEASE

KEX2007-10

Additional Staking on Ivanhoe Creek Property, NV

Kent Exploration Inc (“the Company”) announces that Senator Minerals Inc (Senator) as operator of the Ivanhoe Creek project, has advised the Company it has staked three placer claims over part of the Ivanhoe Creek project, to the benefit of both Senator and the Company, to cover a potential sodium bentonite deposit.

Senator is currently in the process of a \$600,000 diamond drill program, funded by the Company as part of earning its 50% interest in Ivanhoe Creek project, targeting potential Midas-style gold-silver veins at depth.

The Ivanhoe Creek project is located just north of Great Basin Gold’s Hollister Development Block where Great Basin has recently announced that an ongoing underground drilling program has expanded the reported mineral resource from one million ounces gold equivalent to two million ounces gold equivalent.

Kent Exploration Inc is a junior exploration company that has earned a 50% interest in the Ivanhoe Creek property, a Midas-style target in Nevada’s Carlin Trend, has a 100% interest in a mining lease option on a gold/silver prospect in eastern Washington state, and is earning a 100% interest in the Rosebud property, a gold/silver prospect in northern Arizona.

This News Release has been prepared on behalf of the Kent Exploration Inc Board of Directors, which accepts full responsibility for its contents.

ON BEHALF OF THE BOARD
